

Hands-On IAPEM Congress 2025

Roma, 01 May 2025

RE: ASMOE Presidential Invitation

Dear Colleagues,

With great enthusiasm and a deep sense of responsibility, I am pleased to invite you to the **IAPEM National Congress 2025**, which will be held in Milan on the **7th and 8th of November**, at the prestigious **Crowne Plaza Hotel Milano - Linate**.

This will be a special opportunity to come together, exchange ideas, and grow collectively, as we renew our shared **commitment to a conscious, safe, and scientifically grounded aesthetic medicine**. The congress is open to all professionals working in the fields of medicine, dentistry, surgery, and aesthetic gynecology, with the shared goal of promoting health, well-being, and continuous education.

For the third consecutive year, we proudly carry forward an idea born within IAPEM: hands-on clinical practice during the congress, with live sessions focused on the application of the most advanced aesthetic techniques. In particular, we will once again feature our exclusive **Cadaver Lab Anatomically Driven** session, with live demonstrations of advanced injection techniques, supported by ultrasound guidance before and after treatment. This **unique initiative in the Italian landscape** has already marked a significant shift in how aesthetic medicine training is conducted.

We strongly believe that true innovation must always be grounded in scientific rigor, patient safety, and the sharing of knowledge. For this reason, our congress is not only an occasion for professional development, but also a vibrant space for ethical dialogue and multidisciplinary exchange.

We look forward to welcoming you, confident that your participation will be the true added value of an event designed to build, together, a more competent, safer, and more human aesthetic medicine.

Warm regards,

Dr. Cinzia Forestiero
ASMOE President
